

# AVERY TOOL KIT

**MAKING YOUR LIFE EASIER**

## **MAKE YOUR JOB EASIER WITH AVERY TOOLS**

You are accustomed to the superior performance of Avery Graphics pressure sensitive adhesive films, now Avery brings you a selection of tools designed especially to make your job easier when it comes to application and removal of self adhesive graphics. We realise that the application process is an essential component to ensure a high quality finish and our range of application tools have been designed to help you achieve optimum results.

## **SOPHISTICATED TOOLS FOR SOPHISTICATED APPLICATIONS**

Developed by professional applicators for professional applicators and tested by Avery Graphics experts, the Avery Tool Kit assists with vinyl graphic applications whether computer cut, digitally printed or screen printed. You can buy all the tools or just one, it's up to you.

## **RECOMMENDED USES**

- All vinyl graphic applications, indoors and out, including vehicle applications
- Removal of all vinyl graphics

Integrated Component System

GRAPHICS™

### AVERY TOOLBOX

Avery Graphics has brought together a full 'toolbox' of items to complement our already established Squeegee Pro, popular 30° Knife, Application Gloves, Air Release Pen, and Surface Cleaner.

The Avery tools range now features additional products to support graphic application teams. Heavy weight Avery Magnets with a strong pull replaces application or masking tape for positioning and holding graphics.

The Avery Laser IR thermometer is offered to ensure you post heat the vinyl to the right temperature (80-90°C), for a reliable vinyl application your customers will be happy about long after the job's done. The useful little Avery Snitty - a slitting tool for safe and fast trimming of graphics. A specially designed tool belt to keep all of your tools together allowing fast and easy access during the application process.

Product	Description	Application Use
<b>Avery Surface Cleaner</b>	Surface preparation spray with improved spray head. Surface cleaner can be applied directly to the substrate eliminating the current two rag system	Thorough substrate cleaning prior to graphic application
<b>Avery Squeegee Pro</b>	Blue rigid PVC squeegee featuring double sided felt edge for scratch free application	Fast and easy application of vinyl graphics to the substrate. Activates pressure sensitive adhesive evenly
<b>Avery Felt Squeegee</b>	Soft flexible squeegee block	Flexible block for rivets and corrugations, often used as an alternative to the Avery Squeegee Pro
<b>Avery Application Gloves</b>	Seamless gloves	Friction free for detailed application areas such as window recesses
<b>Avery Laser Temp</b>	Thermometer	Inspection of graphic applications where heat is required e.g. post heating vehicle wraps
<b>Avery Magnets</b>	Heavy duty magnets with strong pull to hold graphics in place. Featuring easy hold handles for repositioning	Alternative to application or masking tape for positioning and holding graphics
<b>Avery 30° Knife</b>	Professional quality application knife with specially contoured metal handle and 30° angled blade.	Trimming and finishing graphics
<b>Avery Snitty</b>	Mini slitting tool for safe and fast trimming of graphics	Trimming graphics and films
<b>Avery Air Release Pen</b>	Sharp retractable pin in a handy pen design	For releasing trapped air and eliminating bubbles during application
<b>Avery Tool Belt</b>	Fits all Avery tools. Includes a special metal plate for magnets	Keeps all of the tools together to allow fast and easy access during application
